

## **8. Description of Undertaking (Request for Amendment to Permit 2BE-PBP1115)**

Northquest Ltd wishes to carry out diamond drilling at new location during the summer of 2012.

This location is termed Bazooka and is located on federal land 16 km west of the Northquest base camp. The drilling will be centered on 62 21 45N, 93 04 00W.

During 2011, the Bazooka target was evaluated with an archeological survey that was part of a larger survey covering all planned 2011 drilling targets. The survey did not locate any significant archeological sites.

The base camp will be enlarged by adding one new 14' by 16' sleep tent.

Water consumption will remain the same as during 2011.

The total number of personnel in camp will remain at approximately 13.
