RE: NWB Technical Review of 2018 Annual Report for the Pistol Bay Project; Water Licence No. 2BE-PBP1520

Dear Mr. Robinson:

The Nunavut Water Board (NWB or Board) has completed a technical review of 2018 Annual Report submission for the above stated Water Licence.

On December 18, 2018, the Board acknowledged receipt of the Annual Report and additional associated information and made them available to the Kivalliq distribution list for information. No comments have been received to date.

The technical review of the Annual Report determined that the information provided generally addresses the requirements of the Water Licence. The Board appreciates submission of detailed report along with such illustrative photographs.

The Board notes that the Annual Report submission included the updated Spill Contingency Plan and Abandonment and Restoration Plan (Plans) both revised in December 2018. The technical review of the updated Plans found that the additional/updated information addresses the requirements of current Water Licence.

Should you have any questions, please feel free to contact the undersigned at (867) 360-6338 (extension 29) or sergey.kuflevskiy@nwb-oen.ca, at your earliest convenience.

Sincerely,
