Please be advised that there is a possibility that claims may have been staked in the permit areas you have been granted. Any applications to record a mineral claim for claims staked prior to February 1, 2007 may be recorded in the Mining Recorder's Office if they are received within the 60 day deadline. Accordingly, the acreage of your permits may be reduced prior to April 1, 2007. If this should occur, you will be advised by letter.

Mineral exploration in Nunavut must be conducted in accordance with the Territorial Land Use Regulations. For information, I would suggest that you contact Jeff Holwell, Land Administrator, Land Administration, D.I.A.N.D., Box 100, Iqaluit, NU, X0A 0H0, phone 867-975-4283, for further information.

For Prospecting Permits that fall on Inuit Owned surface lands you **must** get permission from the appropriate regional Inuit Association in order to access these privately owned lands. The following permits fall partially or wholly upon Inuit Owned surface lands in the Qikiqtani District.

Permit No.	Claim Sheet	Quarter
7199	058G05	NE
7202	058G05	SW
7203	058G06	NE
7204	058G06	NW
7205	058G06	SE
7206	058G06	SW
7207	058G07	NW
7208	058G07	SW
7211	058G12	SW

Please contact the Qikiqtani Inuit Association prior to entering these lands:

Qikiqtani Inuit Association
 Attn: John Amagoalik
 Lands Manager
 PO Box 1340
 Iqaluit, NU X0A 0H0
 Ph: 867-975-8423/8422
 Fx: 867-979-1643
 lands@QIA.ca

I strongly recommend that you discuss your proposed exploration plans with the appropriate aboriginal organizations and residents of local communities, and that you use local labour wherever possible. This will help prevent misunderstandings and facilitate a positive working relationship between your company and local residents. Land use permit applications should include documentation of these consultations.

As a part of prospecting permit review process certain government departments and outside groups are invited to review and provide comments on all, or specific, areas of application. Please take the time to review these comments at the end of this letter. These comments may pertain to your specific permit areas so please read over them carefully and make note of any areas that have been identified as being of special interest. In the upcoming weeks additional comments may follow.

It is your responsibility to maintain the status of these permits by meeting the requirements as provided for under the Canada Mining Regulations; reference should be made to Sections 29 through 36. Sections 30 and 31 are particularly important as they define the yearly requirements for filing exploration work and monetary deposits for subsequent periods.

Please note that, when grouping permits under section 32 of the Canada Mining Regulations, the application and fee must be received before any of the permits expire, are cancelled or are relinquished. Only active permits can be grouped.

Where a claim is staked pursuant to subsection 33, exploratory work within a permit may be applied towards representation work on the claim(s) pursuant to subsection 35(4), if the claim is *wholly* within the permit.

I would like to take this opportunity to wish you every success in your exploration activities. If you have any questions, please contact Nala Alainga, Acting Deputy Mining Recorder, at (867) 975-4284.

Sincerely,

Spencer Dewar
Supervising Mining Recorder
