Subject: De Beer Canada Inc. – Prince of Wales, Chartrand Lake, Devon Island Project – Renewal

Dear Mr. Qingnaqtuq:

The Nunavut Water Board (NWB) acknowledges receipt of your comments on the above application dated January 29, 2008 and received in our office on February 14, 2008.

Attached is a copy of a map submitted with the application that shows the 2 fly camps below Chartrand Lake, marked as 4498 and 4491. These are the fly camps that have been removed from the application. I trust this is the information you require and await your prompt response on whether or not the application can now go forward.

Sincerely,

Original signed by:

Phyllis Beaulieu
