I examined this application and project is located near Hall Beach, in the Akunnig Region. Therefore, as it is outside the NPC planning region, no conformity will be necessary.

To: Nunavut Planning Commission

Advanced Explorations Inc has been advised by the Nunavut Water Board that they still require NPC's decision re land use conformity with respect to the water licence application for our project in the Roche Bay area of Qikiqtani (not Kivalliq) region, submitted in April. The link to the NWB ftp site containing the required documentation for review is provided below. If NPC's review could be completed as soon as possible and the decision forwarded to NWB, we will be able to move forward with summer work plans.

If this review has already been completed, please disregard this email.

We thank you in advance for your immediate attention to this matter.

Regards  
Gary Williams

Please note that the deadline for comments is May 21, 2010. My apologies that a number of you will be receiving this email twice as many of you are on both distribution lists.

The link to the documents on our ftp site is as follows, this username public and password registry:
