Re: Final Inspection Water Licence no. 2BE-PET1114

To whom it may concern;

On July 29th, 2016 an inspection was completed of water licence no. 2BE-PET1114 by Indigenous and Northern Affairs Canada's Field Operations Division. A number of issues were noted in the inspection report no. [2017-KIV04-CW], mainly related to waste associated with the proponents activities and failure to submit documents.

Since the release of this report, the proponent has resolved or addressed all the outstanding issues that were noted in the inspection report no.[2017-KIV04-CW] to the satisfaction of the inspector.

Based on this and information gathered during the July 29th, 2016 inspection, Field Operations has determined that a final inspection has been completed.

If you have any questions regarding this letter please contact me directly at the coordinates found below.
