### NOTICE TO ALL PARTIES:

### DEADLINE FOR COMMENTS IS ON **FEBRUARY 29, 2016**

The attached provides notice that, on September 30, 2015, a new application for a Type “B” water license for water use and/or waste disposal associated with activities in the Kivalliq region of Nunavut was filed by Agnico-Eagle Mines Ltd. By way of this correspondence, the Board invites parties to provide the NWB with their comments with respect to the application as outlined below. The application consists of the following documents:

- C Non-Technical Summary English and Inuktitut Received September 30, 2015
- Cover Email New Application Received September 30, 2015
- Parker Lake New Application Received September 30, 2015
- AEM Response to New Application Correspondence Received October 23, 2015
- Non-Technical Proj Proposal Summary English & Inuktitut Received October 23, 2015
- Spill Contingency Plan Received October 27, 2015

The application can be obtained from our ftp site at the following link:

<ftp://ftp.nwb-oen.ca/1%20PRUC%20PUBLIC%20REGISTRY/2%20MINING%20MILLING/2B/2BE%20-%20Exploration/2BE-PKR----%20Agnico%20Eagle/>

As noted in the NWB’s earlier correspondence acknowledging receipt of this application, under the Nunavut Land Claims Agreement (NLCA), Article 11, Section 11.5.9 and s. 76 (1) of *Nunavut Planning and Project Assessment Act* (NuPPAA), the proponent of a project proposal governed by the NLCA and NuPPAA that requires a water licence is required to submit a project proposal document (which may include the water licence application) directly to the Nunavut Planning Commission (NPC or Commission). The NPC then reviews the project proposal and makes a determination regarding the applicable land use planning requirements and/or provides direction regarding whether the project proposal is subject to screening by the Nunavut Impact Review Board (NIRB). Under Articles 11, 12 and 13 of the NLCA, NuPPAA and Part 3 of the *Nunavut Waters and Nunavut Surface Rights Tribunal Act* (NWNSTRA), until the project proposal has concluded the applicable land use planning and assessment process required by the NPC and the NIRB, the NWB cannot issue a water licence.

On this basis, the NWB, while previously acknowledging the receipt of the application, waited for the Commission’s determination and recommendations before proceeding to the next steps in the NWB’s processing of the application. Please be advised that on October 21, 2015 the NWB received the required

Now that the application has concluded the pre-licensing steps required under the NLCA, NuPPAA and the NWNSRTA, the NWB is now proceeding to the next steps in processing the application, including providing the attached Notice of Application which will be published in due course. In addition, to ensure this application is dealt with in a timely fashion, the NWB has forwarded notice of all documentation received by the NWB in respect of the application to regulators and Council of the Municipality(ies) most affected by the project. The NWB is also inviting interested parties to make representations about the application, including information requests, identifying issues of water user compensation and providing technical review comments directly to the NWB **within thirty (30) days from the date of this letter; on or before February 29, 2016.**

Robin
