

PART 1 FORM PROJECT PROPOSAL INFORMATION REQUIREMENTS

To access NIRB documents, project screenings, and project reviews please visit the Nunavut Impact Review Board's ftp site http://ftp.nirb.ca/. The NIRB's website (www.nirb.ca) is currently under construction. Please contact info@nirb.ca should you have any questions or require further information.

IMPORTANT!

Please be advised that your application will not be processed until the Sections 1 - 9 are completed in their entirety, in both English and Inuktitut (+ Inuinnaqtun, if in the Kitikmeot).

	SECTION 1: APPLICANT	INFORM	ATION
	Project Name Exploration regional: Fox Lake -	Peter Lake	e – Parker Lake
•	Applicant's full name and mailing address: Mines Agnico-Eagle Limited, Exploration division C.P. 87, chemin de la mine Goldex Val-d'Or (Qc)	Phone: Fax: Email:	819-874-5980 ext: 3622 819-874-3318 David.frenette@agnicoeagle.co m
av	Primary contact's full name and mailing address: David Frenette Mines Agnico-Eagle Limited C.P. 87, chemin de la mine Goldex Val-d'Or (Qc)	Phone: Fax: Email:	819-874-5980 ext: 3622 819-874-3318 David.frenette@agnicoeagle.co m
	SECTION 2: AUTHORIZA Indicate all authorizations associated with the proje		Western State - State
(((Regional Inuit Association (RIA) Nunavut Water Board (NWB) Nunavut Planning Commission (NPC) Indian and Northern Affairs Canada (INAC) Department of Fisheries and Oceans (DFO) Community Government & Services (CG&S) Nunavut Research Institute (NRI) Department of Culture, Language, Elders, and Youth (CLEY)	Can Envi Gov Dep Han Park	adian Launch Safety (CLS) ironment Canada (EC) ernment of Nunavut (GN) artment of National Defense (DND)
•	List the <u>active</u> permits, licenses, or other authorize and their expiry date(s):	ations rela	ted to the project proposal,

L	ist the <u>pending</u> permits, licenses, or ot	her au	thoriz	ations related to the project propos	al:
_	NWB : applications for 2 water licences ha				
	ANDC: an application for a land use perm				
	IA: an application for a land use permit ha PC: a conformity determination application

- All project types listed above, except those marked with an asterisk (*), will also require the Proponent to submit a Part 2 Project Specific Information Requirement (PSIR) Form. The NIRB application process will not be considered complete without the Part 2 PSIR Form.
- 2. Please be advised that in order to complete the NIRB process, the NIRB may request additional information at any time during the process.
- 3. If "Other" is selected, contact NIRB for direction on whether a Part 2 PSIR Form is required.

2. If Project Type 3, 4 or 5 being extracted. Include			cate the mineral of into	erest that is
x Base Metals (zinc, copper	gold silver etc)			
Diamonds	, gold, 511461, 616)			i i
Uranium				
0"				
3a. If Project Type 12, 13 o	r 14 was selecte			ons below.
Transportation Type	Quantity	Prop	osed Use	Length of Use
E.g. Helicopter	1	Site to site pic	k ups and drop offs	6 days
3b. Describe any docks, pier with the proposed project a Part 2 Form.				
3c. If a temporary camp site indicate the type and sou				etail and
4. Personnel Total No. of personnel on site = (A) 10	Total No. o days on-si = (B)		Total No. (A) × (B) =	of Person days = 300
5. Timing Period of operation: from Proposed term of authorization: from	2016		to October 2021 to	
	ly): ivalliq [lational Park	Kitikmeot	Transboundar	y:
6b. Describe the location of the nearest communities The proposed activities are of the Rankin Inlet commu	and any protecte situated on mir	d areas.		
or the Ruman met commu				
-				49

6c. Discuss the history of Mineral claims were acq		d for any project activities in	n the past.
6d. Indicate if there are a Please consult the appli		palaeontological historical s	ites in the area.
7. Land Status (check all t	hat applies):		
X Crown Inuit Owned Surface	Commissione Lands X Inuit Owned S	rs' N Sub-Surface Lands	Municipal
8a. Co-ordinates:			
Min Lat (degree/minute)	63 00 00	Min Long (degree/minute)	92 45 00
Max Lat (degree/minute)	63 40 00	Max Long (degree/minute)	94 50 00
NTS Map Sheet No: 55 (Please ensure that maps of the Resources Canada)	5M08, 55M09, 55M10, 55N project are attached (1:50,000 in	— NO2, 55NO3, 55NO4, 55NO5 favailable, 1:250, 000 Mandator	, 55N06, 55N07, 55N12 y) available from Natural
8b. If the project proposal	includes a camp , please	provide the coordinates of	the camp location
Min Lat (degree/minute) Max Lat (degree/minute)	5	Min Long (degree/minute) Max Long (degree/minute)	
If different from above NTS Map Sheet No: Please ensure that maps of the Resources Canada		available, 1:250, 000 Mandatory	r) available from Natural
		be required in a subseque may take the form of a digit	

SECTION 4: NON-TECHNICAL PROJECT PROPOSAL DESCRIPTION

Please include a non-technical description of the project proposal, no more than 500 words, in English and Inuktitut (+Inuinnaqtun, if in the Kitikmeot). The project description should outline the following:

- · The project activities, their necessity and duration;
- Method of transportation;
- Any structures that will be erected (permanent/ temporary);
- Alternatives considered; and
- Long-term developments, the projected outcome of the development for the area and its timeline.

<u>IMPORTANT:</u> If the proposed activities require submission of a NIRB Part 2 PSIR Form, please complete Section 8 only, otherwise continue on with Section 5.

SECTION 5: MATERIAL USE

1.	List equipment	to	be i	used	(including	drills.	pumps.	aircraft.	vehicles.	etc.)	:
----	----------------	----	------	------	------------	---------	--------	-----------	-----------	-------	---

Equipment type and number	Size – dimensions	Proposed use

2a. Detail fuel and hazardous material use:

Fuel	Number of Containers and Capacity of Containers	Total Amount of Fuel (in Litres)	Proposed Storage Methods
Diesel			
Gasoline			
Aviation fuel			
Propane			
Other			
Hazardous Materials and Chemicals		Total Amount of Hazardous Materials and Chemicals (in Litres)	Limited quantity of hazardous materials are needed for the drilling.

2b. Describe the proposed Spill Prevention Plan.		

3a. Detail the anticipated daily water consumption rates

Daily amount (m³)	Proposed water retrieval methods	Proposed water retrieval location

3b. Hav	e you app	olied for	a water Licei	nse with the	Nunavut V	Vater Board?
---------	-----------	-----------	---------------	--------------	-----------	--------------

YES.	(aire	ady	emit

□ NO

If yes, what class of licence?

□ Class A Water Licence

Class B Water Licence

SECTION 6: WASTE DISPOSAL AND TREATMENT METHODS

1.	List the types of	waste associated	with the	proposed	project	activitie
	List the types of	Waste associated	WILLIE CITO	proposca	project	MOLIV

Sewage (human waste) Greywater Combustible wastes Non-Combustible wastes Overburden (organic soil, waste material, tailings) Hazardous waste Other:	Type of waste	Projected amount generated	Method of Disposal	Additional treatment procedures
Combustible wastes Non-Combustible wastes Overburden (organic soil, waste material, tailings) Hazardous waste	Sewage (human waste)			
Non-Combustible wastes Overburden (organic soil, waste material, tailings) Hazardous waste	Greywater			
wastes Overburden (organic soil, waste material, tailings) Hazardous waste	Combustible wastes			
Overburden (organic soil, waste material, tailings) Hazardous waste	Non-Combustible			
waste material, tailings) Hazardous waste	wastes			
Other:	Hazardous waste			
·	Other:			
2. Describe the proposed Waste Management Plan.	2. Describe the propos	ed Waste Management P	lan.	

SECTION 7: COMMUNITY INVOLVEMENT & REGIONAL BENEFITS

1. List the community representatives that have been contacted and provide the minutes of the meetings if available:

Meetings are conducted regularly between Agnico Eagle and the community regarding the various projects. No meetings specific to the planned exploration works under this application were conducted.

Community	Name	Organization	Date Contacted
-			

SECTION 8: GENERAL QUESTIONS

1	Will you	be disturbing any	known archaeolog	rical sites?
	AAIII AOG	DC GISturbilla ally	KIIOWII AIGIIAGOIO	aicui Sites i

☐ YES

X NO

SECTION 9: APPLICANT SIGNATURE

Please sign and date your application:

	Numer is Anglindered (Table) space (Mineral Reagiliptical)	
and suntto	ENV. CUBR.	2015/09/2
Signature	Title	Date

APPENDIX A Project Type Definitions

- **Access Trail**: A project proposal with the objective of providing vehicular access to an area of interest involving minimal alteration to the terrain.
- Advanced Exploration: A project proposal with the objective of identifying size, grade, and physical characteristics of a mineral occurrence and to assess the economic and technical feasibility of developing the mineral deposit into a producing mine
- All-Weather Road: A project proposal with the objective of road construction for use in all seasons.
- **Bulk Sampling:** A project proposal with the objective of extracting of large samples of mineralized material involving hundreds to thousands of tonnes. Samples are selected as representative of the potential mineral deposit being sampled. May involve crushing/milling (on small-scale)
- **Harvesting activities:** A project proposal with the objective of harvesting animals, marine mammals and/or fish from their natural habitats by means of hunting or trapping for traditional and commercial use.
- Marine Based Activities: Any activity occurring in the marine environment, such as vessel use associated with land-based activities or disposal at sea.
 - *Please note that normal community re-supply or individual ship movements not associated with land-based project proposals shall not be screened by NIRB (Section 12.12.2 of NLCA).
- Mine Development: A project proposal with the objective of extracting broken rock with mineralization of sufficient grade and tonnage to sustain commercial mining operations (ore). Mining a body of ore can be achieved by either open pit and/or underground development. Mine development may involve milling. Milling involves treatment of the extracted ore through a combination of mechanical and chemical processes to selectively recover the valuable mineral.
- **Mineral Exploration:** A project proposal with the objective of exploring an area to find geological anomalies. It involves site reconnaissance (ground and/or air) to locate broad and fiscal mineral deposits.
- Offshore Infrastructure: A project proposal with the objective of building off loading facilities constructed off the shoreline and connected to the mainland of the marine or freshwater environment. Examples include a jetty, dock, or port facility.
- Oil and Gas Exploration/Activities: A project proposal that includes 1) exploration, such as seismic or geological mapping, 2) drilling of oil and gas wells, 3) construction and operation of a pipeline, a gas processing plant or any oil and gas facility within Nunavut.
- Pits and Quarries: A project proposal with the objective of pitting, which involves the extraction of granular material (i.e. sands and gravels) and quarrying, which involves the removal of consolidated rock (i.e. bedrock, frozen soil).
- **Scientific Research:** A project proposal with the objective of implementing a series of site activities comprised of observation of phenomena, measurement and collection of data necessary for scientific investigation in designated areas within a limited time period.
- Seismic Survey: A project proposal with the objective of conducting a survey to map the depths and contours of rock strata by timing the reflections of sound waves released from the surface. Survey site locations may be offshore (not within 12 nautical miles of any coast), near shore, and extended onshore.
- Site Cleanups: A project proposal with the objective of site cleanups (includes DEW line site cleanups), which focuses on the remediation of chemically contaminated soils, stabilization of landfills and dumps, demolition/disposal of infrastructure and debris and monitoring after cleanup is completed.

- **Tourism Activity:** A project proposal with the objective of conducting travel predominantly for recreational, sport or leisure purposes within a designated area and limited time period.
- **Winter Road:** A project proposal with the objective of building a road for winter use by leveling and compacting surface snow and ice. Winter road is removed at end of season.
- **Winter Trail:** A project proposal with the objective of building a trail for winter use by a single pass of a tracked vehicle using a blade, if necessary.
