Hi David.

The review of water licence applications for Parker Lake and Peter Lake Projects is not still formal, however, i have got a quick question on the rational for applying for 2 standalone licences, is it because the proposed projects are geographically far from each other?

Also, I noticed that no Spill Contingency Plan (SCP) is included. You may want to prepare the SCP's when awaiting for the NRB decisions.

It is acknowledged that a Reclamation and Closure Plan will have to be submitted with an amendment of licence, if the project needs the installation of buildings or other infrastructure as stated in the block 21 of applications.

Regards,

You
