Hi Rebecca;

The amendment application will require:

- Cover letter on what the amendment is
- Completed amendment application with signed signature page
- Completed supplemental questionnaire
- English & Inuktitut summary of the amendment
- Nunavut Impact Review Board (NIRB) Screening Decision or letter/e-mail from NIRB additional screening isn't required
- Nunavut Planning Commission (NPC) Conformity Review or letter/e-mail from NPC additional conformity review isn't required
- \$30.00 administration fee

The amendment application will take the same amount of time to process as any application once all information is received it will go out for a 30 day review period after which the NWB tech will review all comments receive than present to the Board for their decision.

Regards,

Richard

Subject: Licence amendment

Hi Richard,

I have a quick question about amending an existing water licence. I currently have water licence 2BE-QAM0813 and my project scope only included drilling with 1 drill. I would like to have a 2 drill diamond drill program which will raise the water consumption. Currently I am allowed 58 cubic metres a day, and I would need 54 more cubic metres to have 2 drills going.

Is this amendment possible and relatively easy to do? What are the steps to have my water usage increased to allow for 2 drills?

Cheers,
Rebecca
