

March 26, 2008

Ms. Phyllis Beaulieu  
Manager, Licensing  
Nunavut Water Board  
P.O. Box 119  
Gjoa Haven, NU., X0B 1J0

Fax # 867 360 6369

Dear Ms. Beaulieu

**RE: NWB File # 2BE - QAM0608 Exploration**

NWB Water license application/proposal listed above was reviewed for conformity against the Keewatin Regional Land Use Plan (KRLUP) under INAC file # N2008C0007 on February 29, 2008. After reviewing the file, NPC finds that the above application/proposal does not require the proponent to agree to terms which was previously agreed to.

Therefore no conformity determination is needed. I have attached those terms in which the proponent undersigned with this letter which the NWB, as an recognized authorizing agency under the *NLCA*, is responsible to implement the attached requirements by incorporating the requirements directly, or otherwise ensuring that they be met, in terms of the conditions of any authorizations issues.

My office would be pleased to discuss these with you how to best implement these requirements and to review any draft authorizations that you wish to provide for that purpose.

Thank You

Brian Aglukark, NPC  
Arviat

CC. Leslie Payette, Nunavut Impact Review Board  
Jeffrey Howell, Indian & Northern Affairs  
Rebecca Hunter, Cameco Corp.

Application # INAC File # N2008C0007

**NUNAVUT PLANNING COMMISSION  
APPLICATION TO DETERMINE CONFORMITY  
WITH THE KEEWATIN REGIONAL LAND USE PLAN**

*All applicants for a project proposal shall comply with the requirements listed below. The relevant sections of the plan are noted in each requirement.*

**GENERAL**

2. **Environmental Protection:** s2.4.9: The applicant undertakes to prevent any new occurrences of pollution, garbage and contamination at the site of the development.

☒ Yes

No

3. **Removal of Fuel Drums:** s2.4.9: The applicant undertakes to remove all drums safely from the site and dispose of the drums in a safe manner.

☒ Yes

No

4. **New Site Restoration and Clean Up:** s2.4.15 and Appendix 2, s7: The applicant undertakes to clean up the site and restore the site to its natural condition to the greatest extent possible.

☒ Yes

No

5. ~~Old Site Restoration and Clean Up:~~ s2.4.10: The applicant undertakes to clean up the site and restore the site to its original condition to the greatest extent possible, including any work required due to the applicant's action prior to this application.

☒ Yes

No

6. **Low Level Air Flights:** s5.4.4 and Appendix 2, s3: Will the applicant avoid low-level flights?

Yes

☒ No

- i. If not, explain why such flights are or may be absolutely necessary.

This summer we may undertake a small low-level survey to complete an area

of our project, which we did not complete last summer due to weather. It would be between 500 + 700 line km (about 1 week of work).

This survey has to be flown at low level (30m) in order to get accurate data.

- ii. If such flights are or may be absolutely necessary, will they avoid disturbance to people and wildlife?

Yes

No

- iii. If not, explain why it is not possible to avoid such disturbance.

We have protocols outlined in our 2008 Wildlife Plan so that we minimize disturbance to wildlife by screening the survey area beforehand to make sure the area is clear of wildlife. If there are herds in the area, the area is not flown.

The survey will not fly within 1 km of the Thelon River to minimize human disturbance.

7. Caribou Protection Measures s2.4.6 and Appendix 3: Will the applicant comply with the Caribou Protection Measures outlined in section 2.4.6 and in Appendix 3?

Yes

No

8. Caribou Water Crossings: s2.4.6 and map: Will the applicant avoid, between May 15 and September 1, to construct any camp, cache any fuel or conduct any blasting within 10 km of any Designated Caribou Water Crossing identified on the certified Caribou Protection Map?

Yes

No

## ARCHEOLOGY

9. Reporting of Archaeological Sites: s4.4.3 and Appendix 3; s2 and s8: Will the applicant immediately report the discovery of all

suspected archaeological sites to the Department of Culture, Language, Elders and Youth (GN)?

☒ Yes

☐ No

### **PARTICULAR AREAS**

15. **Game Sanctuary:** s2.4.1: Is the project proposal located, in whole or in part, within the Thelon Game sanctuary?

☐ Yes

☒ No

16. **Bird Sanctuary:** s2.4.1: Is the project proposal located, in whole or in part, within the Mc Connell River Migratory Bird Sanctuary, the Harry Gibbons Migratory Bird Sanctuary or, the East Bay Migratory Bird Sanctuary?

☐ Yes

☒ No

17. **Southern Southampton Island and Coats Island:** s3.4.5: Is the project proposal located, in whole or in part, in southern Southampton Island and Coats Island?

☐ Yes

☒ No

If yes, does the project proposal involve hydrocarbon exploration?

☐ Yes

☒ No

18. **Municipal Lands:** s1.4.3: Is the project located, in whole or in part, within municipal boundaries?

☐ Yes

☒ No

### **PARTICULAR ACTIVITIES**

19. **Hydroelectric Power Development:** s2.4.13: Does the project proposal involve additional hydroelectric power development?

☐ Yes

☒ No

20. Uranium Development and Mining: s3.4.5, s3.4.6: Does the project proposal involve either uranium development or uranium mining?

Yes

☒ No

23. Code of Good Conduct for Land Users: Appendix 2: The applicant undertakes to adhere to the Code of Good Conduct at all times.

☒ Yes

No

---

I, Rebecca Hunter (name of applicant), certify that the information I have given in this application is true and correct and hereby make the above undertakings which form part of my application for a project proposal within the meaning of the Nunavut Land Claims Agreement.

Date: Feb 11/08 Signature of Applicant: 

**Keewatin Regional Land Use Plan  
Appendix G  
Code of Good Conduct for Land Users**

1. The landscape of each camp and other land use sites will be restored to its original condition to the greatest degree possible. Water quality will be preserved, and no substances that will impair water quality will be dumped in water bodies. When possible and feasible, old sites will be restored to the natural state.
2. All land users shall assist communities and government(s) in identifying and protecting archaeological sites and carving-stone sites, as required by law.
3. Generally, low-level flights by aircraft at less than 300 metres should not occur where they will disturb wildlife or people. If such flights are necessary, they should only take place after consultation with the appropriate communities. All land users are responsible for reporting to the land managers any illegal or questionable low-level flight.
4. All activities on the land will be conducted in such a fashion that the renewable resources of the area in question are conserved.
5. Whenever practicable, and consistent with sound procurement management, land users will follow the practice of local purchase of supplies and services.
6. Land users will establish working relationships with local communities and respect traditional users of the land.
7. During the caribou calving, post-calving and migrating seasons, land use activities should be restricted to avoid disturbing caribou, in general, and activities will be governed more specifically by caribou protection measures such as those contained in Appendix H.
8. Artifacts must be left where they are found. All land users are responsible for reporting to the location of, or any removal or disturbance of, artifacts to CLEY.
9. The mining industry is encouraged to assist in identifying local carving-stone deposits and report any discoveries to KIA. Industry is also encouraged to identify and report old waste sites that need to be cleaned up.
10. All land users shall obey the laws of general application applying to land use.

**Keewatin Regional Land Use Plan  
Appendix H  
DIAND Caribou Protection Measures**

1. (a) The Permittee shall not, without approval, conduct any activity between May 15 and July 15 within the Caribou Protection Areas depicted on the map certified by the Engineer as the "Caribou Protection Map" and annexed to this Land Use Permit.  
(b) A Permittee may, upon approval by the Land Use Inspector, operate within the said Caribou Protection Areas beyond the May 15 deadline set out in 1 (a), provided that, when monitoring information indicates that caribou cows are approaching the area of operation, the Permittee will implement 1 (c).  
(c) On cessation of activities pursuant to 1 (a) or 1 (b), the Permittee will remove from the zone all personnel who are not required for the maintenance and protection of the camp facilities and equipment, unless otherwise directed by the Land Use Inspector.  
(d) The Permittee may commence or resume activities prior to July 15 within those parts of the Caribou Protection Areas released by the Land Use Inspector for the reason that caribou cows are not expected to use those parts for calving or post-calving (note 1).
2. (a) In the event that caribou cows calve outside of the Caribou Protection Areas, the Permittee shall suspend operations within the area(s) occupied by cows and/or calves between May 15 and July 15.  
(b) In the event that caribou cows and calves are present, the permittee shall suspend:
  - (i) blasting;
  - (ii) overflights by aircraft at any altitude of less than 300 meters above ground level; and
  - (iii) the use of snowmobiles and ATVs (all-terrain vehicles) outside the immediate vicinity of the camp.
3. (a) During migration of caribou, the Permittee shall not locate any operation so as to block or cause substantial diversion to migration.  
(b) The Permittee shall cease activities that may interfere with migration, such as airborne geophysics surveys or movement of equipment, until the migrating caribou have passed.
4. (a) The Permittee shall not, between May 15 and September 1, construct any camp, cache any fuel, or conduct any blasting within 10 kilometres of any "Designated Crossing" as outlined on the map certified by the Engineer as the "Caribou Protection Map" and annexed to this Land Use Permit.  
(b) The Permittee shall not, between May 15 and September 1, conduct any diamond drilling operation within 5 kilometres of any "Designated Crossing" as outlined on the map certified by the Engineer as the "Caribou Protection Map" and annexed to this Land Use Permit.
