Dear Ms. Tattuinee

RE: KIA File#KVL307C02 Cameco Corp. Exploration Uranium.

KIA land use application/proposal listed above was reviewed for conformity against the Keewatin Regional Land Use Plan (KRLUP) under NWB file #2BE-QAM0608 received on March 13, 2008. After reviewing the file, NPC finds that the above application/proposal does not require the proponent to agree to terms which were previously agreed to.

Therefore no conformity determination is needed. I have attached those terms in which the proponent undersigned with this letter which the KIA as an recognized authorizing agency under the NLCA, is responsible to implement the attached requirements by incorporating the requirements directly, or otherwise ensuring that they be met in terms of the conditions of any authorizations issued.

My office would be pleased to discuss this with you how to best implement these requirements and to review any draft authorizations that you wish to provide for that purpose.

Thank You

Tommy Owljoot, NPC
