---

Good afternoon Rebecca;

The NPC cannot confirm whether or not a conformity determination is required until after receiving the NWB amendment application form and or the amendment description as submitted from the NWB. In reading your proposed changes to below, it seems a conformity determination will not be required, but will wait to confirm and inform NIRB/NWB of our decision after receiving the information from NWB.

Any questions concerns, please do not hesitate.

Brian Aglukark, NPC  
Arviat

Subject: Water Use Licence Amendment

Hi Brian ,

I would like to amend my current Water Use Licence (2BE-QAM0813) to have 111 m3/day of water use instead of 58 m3/day. The rest of the project scope will be exactly the same. The reason for this change is to accommodate the water use required for an additional diamond drill. I have been in contact with the NWB and I am in the process of filling out an amendment form and related forms but I require either the NPC to review and accept or send a letter/email saying a review is not necessary.

Please get back to me at your convenience.

Regards,  
Rebecca
