

ADDENDUM TO THE 2008 HAZARDOUS MATERIAL SPILL CONTINGENCY PLAN, TURQAVIK – ABERDEEN PROJECT, NUNAVUT

1. Cameco 24 hour site coordinator:

(Arnold Moen Nijssen or James Curtis): **011-8816-316-29369** (dial 011 from land line)

2. Cameco Corporate Contacts:

Gerard Zaluski (District Geologist): 1-306-956-6359

Charles Roy (Regional Director): 1-306-956-6358

Address: 2121 11th Street West, Saskatoon, SK, S7M 1J3

3. On Site Chemicals (Variable quantities at any point in time), MSDS Sheets in Office:

Extreme Number One Granular Drilling Mud Polymer - High grade, Anionic, Acrylamide Copolymer in the form of a free flowing coarse white powder.

Extreme Super G- Environmentally friendly biodegradable polymer in powder form for use with drilling fluid.

Extreme Stop- Specially developed extremely absorbent stable polymer powder.

Extreme Linseed Lube- Linseed soap in the form of a thick white paste, used in drilling operations to reduce cutting compaction.

Extreme Super-G Gold- Environmentally friendly, biodegradable liquid drilling fluid polymer, used in replacement of bentonite.

Extreme Rod Grease: High Tack Diamond Drill Rod Grease - Hydro treated neutral base oil used for drilling operations.

Extreme Torq-EEZ: Liquid Drill Rod Lubricant – Stable, pressure reducing non-flammable lubricant in liquid form used for reducing drill rod friction on borehole wall.

Propane- Dimethylmethane fuel used for cooking and heating hot water.

Regular Unleaded Gasoline- Automotive fuel for use in pumps and ATVs.

Jet A-1 Aviation Fuel- Aviation turbine fuel (Kerosene Type) for use in helicopter and coil heaters (used in coil heaters when contaminated).

Arctic P-50 Low Sulphur Diesel- Automotive fuel used in generator and coil heaters at drill.

Mobile Jet Oil II- Aviation Turbine Lubricant/Oil.

Aeroshell Grease 22- Aviation lubricating grease.

Aeroshell Grease 7- Aircraft lubricating grease.

10W 40 Engine Oil- Used for generator engine.

Sodium Chloride- Salt used to prevent freezing of drill hole while drilling.

4. **Nunavut Spill Report Form:** <http://www.enr.gov.nt.ca/eps/pdf/NT-NU%20Interactive%20Spill%20Form.pdf>
5. **INAC Manager of Field Operations (in the event of a spill):**
1-867-975-4295
6. **EC Emergency pager Number:**
1-867-766-3737
7. **GN-DOE Contact Number:**
1-867-975-7700
