**Re: NWB Water License 2BE-QIL0712 – Renewal/Amendment Application
Amendment and Submission of Community Meeting Summary**

Dear Ms. Kharatyan,

Please be advised a land use application for municipal lands has been submitted to Community and Government Services in association with the sampling activities proposed for Stornoway Diamond Corporation's ("Stornoway") Qilalugaq Project located approximately 10km outside of the hamlet of Repulse Bay.

The scope of the project remains the same as that which was presented in the original application to the Nunavut Water Board ("NWB") however in the original application documents submitted to the NWB the time frame for the execution of the proposed project was cited as a six week time period (approximately) in July and August of 2012 or July and August of 2013. In the application for municipal land use submitted to Community and Government Services the timeline for the project has been pushed back by one year. The new, amended timeline for the proposed sampling activities is over a six week period in either July and August of 2013 or July and August of 2014.

Please accept this correspondence as official notification as an amendment to the original application.

In addition, since the submission of the original NWB application community information meetings have been held. In late September of 2012 representatives from Stornoway Diamond Corporation travelled to Repulse Bay and held a private meeting with the mayor and council of Repulse Bay and a public information session that was open to all community members.

A summary of those meetings and copies of the handouts that were made available to those who attended accompany this amendment request.

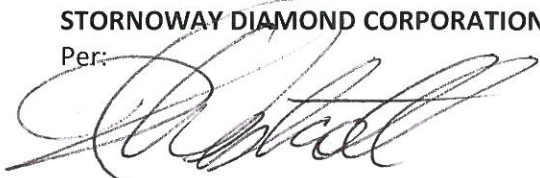

A similar notice of the amendment to the timing of the proposed project and a summary of the information meetings held will be submitted to the Nunavut Impact Review Board concurrently with this notification

If you have any questions regarding this submission please contact the undersigned at your convenience.

Yours truly,

STORNOWAY DIAMOND CORPORATION
