

**NWB Annual Report**

**Year being reported:** 2013 ▼

**License No:** 2BE-QIL1217 **Issued Date:** November 28, 2012  
**Expiry Date:** November 30, 2017

**Project Name:** The Qilalugaq Project

**Licensee:** Stornoway Diamond Corporation

**Mailing Address:** Unit 116-980 West 1st Street  
 North Vancouver, BC  
 V7P 3N4

**Name of Company filing Annual Report (if different from Name of Licensee please clarify relationship between the two entities, if applicable):**

Stornoway Diamond Corporation

**General Background Information on the Project (\*optional):**

The bulk sampling project that this licence was issued for did not take place this year and is scheduled for the summer of 2014.

**Licence Requirements: the licensee must provide the following information in accordance with**

Part B ▼ Item 2 ▼

**A summary report of water use and waste disposal activities, including, but not limited to: methods of obtaining water; sewage and greywater management; drill waste management; solid and hazardous waste management.**

Water Source(s):	No water use is authorized under this license	
Water Quantity:	N/A	Quantity Allowable Domestic (cu.m)
	N/A	Actual Quantity Used Domestic (cu.m)
	0 cu.m	Quantity Allowable Drilling (cu.m)
	0 cu.m	Total Quantity Used Drilling (cu.m)

**Waste Management and/or Disposal**

- ☐ Solid Waste Disposal
- ☐ Sewage
- ☐ Drill Waste
- ☐ Greywater
- ☐ Hazardous
- ☐ Other:

**Additional Details:**

There has been no waste disposal conducted under the authority of this license since its issuance on November 28, 2012.

**A list of unauthorized discharges and a summary of follow-up actions taken.**

Spill No.:  (as reported to the Spill Hot-line)

Date of Spill:

Date of Notification to an Inspector:

Additional Details: (impacts to water, mitigation measures, short/long term monitoring, etc)

### Revisions to the Spill Contingency Plan

Additional Details:

100 - 205 litre drums of Jet A and accompanying spill kit is being stored in a temporary site in an Insta-berm (secondary containment) in the northeast part of the Hamlet of Repulse Bay until its use next summer, which is in accordance with Scenario 1 of the approved NWB application. A Temporary Fuel Storage Permit for the municipality of Repulse Bay was received by Randy Mercer from the Department of Community & Government Services on January 10, 2014 and the Spill Contingency Plan addendum was approved as part of that application. As per part B, Item 1c and part H, Item 2, the addendum with the schematic of the location of the drums is attached in appendix A.

### Revisions to the Abandonment and Restoration Plan

Additional Details:

### Progressive Reclamation Work Undertaken

Additional Details (i.e., work completed and future works proposed)

### Results of the Monitoring Program including:

**The GPS Co-ordinates (in degrees, minutes and seconds of latitude and longitude) of each location where sources of water are utilized;**

Additional Details:

**The GPS Co-ordinates (in degrees, minutes and seconds of latitude and longitude) of each location where wastes associated with the licence are deposited;**

**Appendix A**  
**Addendum to Spill Contingency Plan for Licence No. 2BE-QIL1217**  
**January 2014**

One hundred (100) 205 litre drums of Jet-A is being stored at a temporary site on the north east end of the hamlet of Repulse Bay until it is used next summer.

The location of the fuel storage is:

534,360m E / 7,379,810m N, NAD 83, zone 16 or latitude 66° 32' 8" / longitude -86° 13' 36"

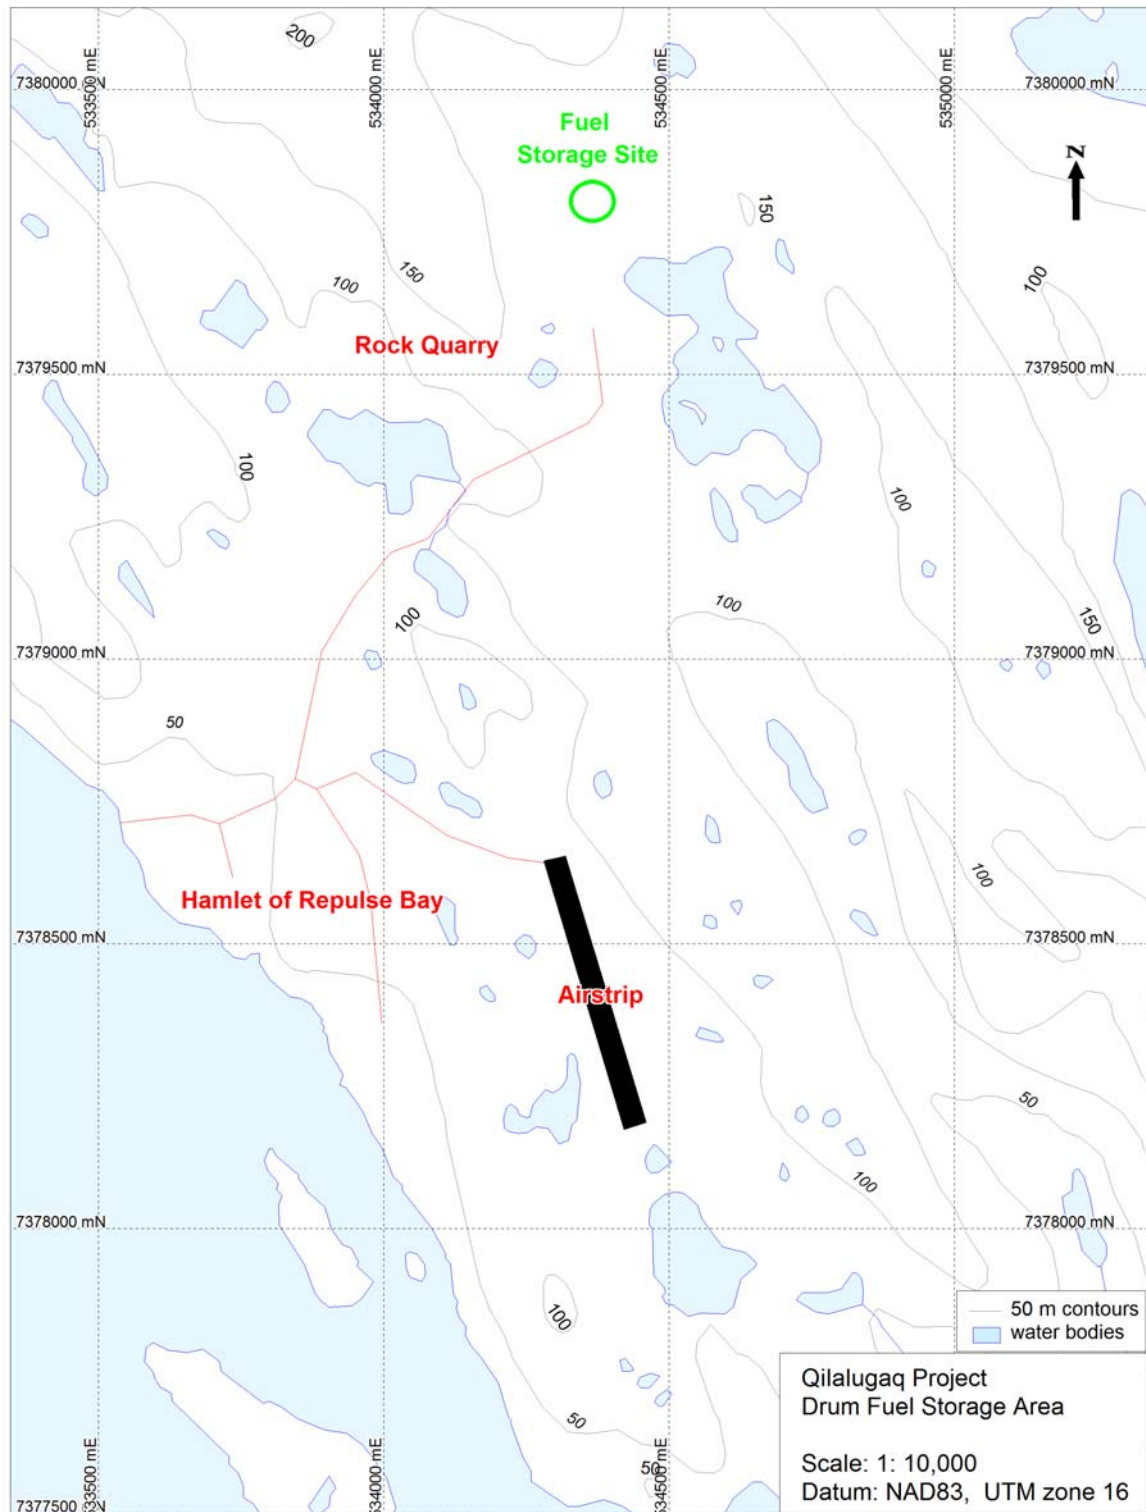

Maps of this site as well as a photo of the area is attached.

The fuel is stored in secondary containment being a collapsible mobile berm (Insta-berm™) and is temporary. The fuel berm and empty fuel drums will be removed at the end of the 2014 program, the berm dismantled and the ground re-contoured to match the surrounding terrain if disturbed. A large spill kit is also on site.

This fuel is to support the Qilalugaq Property bulk sample program that will be occurring over July and August of next summer, 2014. This fuel is positioned in Repulse Bay to ensure the timely start of the 2014 program. The remaining drums of fuel mentioned in the bulk sample land use and water board permit and required for the 2014 program will be brought in next summer on an as needed basis by plane.
