EXPLORATION/ REMOTE CAMP SUPPLEMENTARY QUESTIONNAIRE

Applicant: Falconbridge Limited **Licence No:** 2BE-RAI (old NWB2RAI)

ADMINISTRATIVE INFORMATION

1. **Environment Manager:** Fred Keats Tel: 450-972-2861 Fax 450-668-2929
E-mail: fred.keats@falconbridge.com
2. **Project Manager:** Gord Maxwell Tel: 450-972-2842 Fax: 450-668-2929
E-mail: _gord.maxwell@falconbridge.com
3. Does the applicant hold the necessary property rights?
Yes. Crown mineral claims in good standing
4. Is the applicant an 'operator' for another company (i.e., the holder of the property rights)? No
If so, please provide letter of authorization.
5. Duration of the Project
☐ Annual
☒ Multi Year: but seasonal (summer months only)
 If Multi-Year indicate proposed schedule of on site activities
 Start: August 31st 2006 Completion: August 31st 2011

CAMP CLASSIFICATION

6. Type of Camp
☐ Mobile (self-propelled)
☒ Temporary
☒ Seasonally Occupied: June to September
☐ Permanent
☐ Other: _____
7. What are the design population of the camp and the maximum population expected on site at one time? What will be the fluctuations in personnel?

The camp is designed to accommodate approximately 15 persons, with minor fluctuations down to 5 to 10 personnel.

8. Provide history of the site if it has been used in the past.

Previous exploration, mining.

CAMP LOCATION

9. Please describe proposed camp location in relation to biogeographical and geomorphological features, and water bodies.

Camp is located near Cullaton Lake, close to the abandoned airstrip.

10. How was the location of the camp selected? Was the site previously used? Was assistance from the Regional Inuit Association Land Manager sought? Include maps and/or aerial photographs.

Camp site selected in previous disturbed area (old mine site) to minimize impact on environment.

11. Is the camp or any aspect of the project located on:

☒ Crown Land Permit number N2004C0031 (DIAND) expires August 10th 2006 application for renewal in progress

☐ Commissioners Lands Permit Number (s)/Expiry Date: _____

☒ Inuit Owned Lands Permit numbers KVL109B19 and KVL304C28 expires August 6th 2006 application for renewal in progress

12. Closest Communities (distance in km):

Arviat, 260 km

13. Has the proponent notified and consulted the nearby communities and potentially interested parties about the proposed work?

No but nearby communities will be contacted if work is available

14. Will the project have impacts on traditional water use areas used by the nearby communities?
Will the project have impacts on local fish and wildlife habitats?

No impacts on water use and wildlife

PURPOSE OF THE CAMP

15. Mining
- ☐ Tourism (hunting, fishing, wildlife observation, adventure/expedition, etc.)
(Omit questions # 16 to 21)
 - ☐ Other _____ (Omit questions # 16 to 22)
- 16.
- ☐ Preliminary site visit
 - ☒ Prospecting
 - ☒ Geological mapping
 - ☐ Geophysical survey
 - ☐ Diamond drilling
 - ☐ Reverse circulation drilling
 - ☐ Evaluation Drilling/Bulk Sampling (also complete separate questionnaire)
 - ☐ Other: _____
17. Type of deposit:
- ☐ Lead Zinc
 - ☐ Diamond
 - ☐ Gold
 - ☐ Uranium
 - ☒ Other: Ni-Cu-PGE and Gold exploration

DRILLING INFORMATION

18. Drilling Activities
- ☐ Land Based drilling
 - ☐ Drilling on ice

There is no planned drilling at this time.

19. Describe what will be done with drill cuttings?
20. Describe what will be done with drill water?
21. List the brand names and constituents of the drill additives to be used? Includes MSDS sheets and provide confirmation that the additives are non-toxic and biodegradable.

22. Will any core testing be done on site? Describe.

SPILL CONTINGENCY PLANNING

23. Does the proponent have a spill contingency plan in place? Please include for review.

Yes- see attached

24. How many spill kits will be on site and where will they be located?

Large spill kits (200 – 400 litre) are located in the camp and at the drill site. Smaller kits (1 to 20 litres) are located where ever fuel is being used or transferred.

25. Please describe the types, quantities, and method of storage of fuel and chemicals on site, and provide MSDS sheets.

Fuels (Diesel, Jet-B) stored on site will be in 205 litre drums, approximately 30 to 40 drums at any one time, at a designated area near the camp that is 100 m or more from any drainages. Drums are inspected upon arrival for integrity, and during operations. Open drums are placed in plastic or metal berm trays. Propane cylinders (100 lb) also used, approximately 10 to 15 in camp at any one time. Small quantities (25 to 50 litres in 25 litre plastic pails) of motor oils, hydraulic oils, or bio-degradable drill additives also stored in camp in contained area.

WATER SUPPLY AND TREATMENT

26. Describe the location of water sources.

Camp water will be drawn from Cullaton Lake.

27. Estimated demand (in L/day * person):

- ☐ Domestic Use: 200L Water Source: Cullaton Lake
- ☐ Drilling Units: _____ Water Source: _____
- ☐ Other: _____ Water Source: _____

28. Describe water intake for camp operations? Is the water intake equipped with a mesh screen to prevent entrapment of fish? Describe:
