Good morning,

I'd like to confirm there is no application fee required for this amendment as the application fee for 2BE-PEN---, which has since been cancelled, will now be applied to this amendment.

- to complete this application the Nunavut Water Board requires summaries in English and Inuktitut of this project amendment
- also require you to provide from the Nunavut Planning Commission (NPC) either a positive conformity or confirmation from NPC that this project doesn't require a conformity review

Attached for your reference is NIRB's determination.

Regards,
