Subject: Application for NWB2ROC9800

Dear Ms. Pfister:

In response to your message to Philippe di Pizzo dated November 2, 1999, the Nunavut Water Board would like to make clear that the water application needs to be received prior to us initiating the application process. The application should also include the supplementary questionnaire, an Inuktitut translation of your summary, and a cheque for \$30.00 payable to the Receiver General of Canada.

Your KIA application will be reviewed as part of the supplementary material. For items on the supplementary questionnaire that are identical to items already described in your project description, make a note to "Refer to..."

With direct written confirmation by the licensee that the project hasn't changed, screening by NIRB might not be necessary. However, this decision needs to be made by NIRB.

Should you require another supplementary questionnaire, please do not hesitate to contact me at the above numbers or at nwblicence@hotmail.com. I am attaching an application form to this letter. We look forward to receiving your application in the near future.

Sincerely,

Rita Becker
Licensing Administrator
