Dear Ms. Beaulieu;

**Re: Western Uranium Corp, Application for Remote Camp and Diamond Drilling,
Sand Lake Area Keewatin**

I have been retained by Western Uranium Corporation to assist them with the above application. As we discussed on Friday, please find attached the above application. The Inuktitut translation of the project summary is presently being completed in Yellowknife and will be provided when available (hopefully by December 6, 2006).

I will send the credit card particulars, for payment under separate email.

To expedite the application process I would request that any additional information requests that may be required for the application, be sent both to Western Uranium Corporation and myself.

Thank you for your assistance so far and we look forward to a license in the new year.

Yours truly,

Ken Weagle
