Subject: Western Uranium Corporation; Submission of a Uranium Exploration Plan for the Sand Lake Property; Licence 2BE-SAN0709

Dear Ms. Klessig;

The Nunavut Water Board ("NWB") would like to acknowledge the receipt of the above document under Part F, Item 1 of Licence 2BE-SAN0709. The Uranium Exploration Plan was distributed upon receipt for review and comment to interested persons with a submission deadline of August 12, 2007.

The technical review of the Uranium Exploration Plan has been completed. Comments on the Plan were received from INAC and EC and should be reviewed by the licensee. The Board has taken into consideration the information submitted and hereby accepts and approves the Uranium Exploration Plan under **Motion 2008-04-L19**, dated **August 27, 2008**. The licensee is instructed to submit within 30 days of the issuance of this approval an addendum to address the following deficiencies:

1. Inclusion of a title page identifying the company's name, project name, date the plan was created and who created the document. The plan should also have a table of contents.
2. The plan should include a map of the site with drill core storage areas marked as well as the camp and location of water sources.

Should you have any further questions, please feel free to contact me at (867) 360-6338, at your earliest convenience.

Yours truly,

Richard Dwyer for
