Subject: Forum Uranium Corporation rental of Thom Lake Camp

Good afternoon;

We had received an application from Forum Uranium Corporation; they had informed the Nunavut Water Board they would be renting the Thom Lake Camp. Here is a quote from our Director of Technical Services:

"...we should contact Tanqueray, indicate that we have an application for exploration and that the applicant has indicated they will be using the Tanqueray Camp under a rental agreement. This is already a licenced facility, so inquire as to whether the arrangements have included compliance with the current licence? Tanqueray will be responsible, and required to provide all data required under the licence for the camp."

The Nunavut Water Board would like your reply as soon as possible.

Regards,

Richard Dwyer
