Dear Ms. Payette, Mr. Manzo, Ms. Beaulieu

Re: [NIRB-07EN046], KIA-KVL307C01], [NWB-2BE-SCH], North Thelon Joint Venture Project – Forum Uranium Corp

The NPC has completed its review of the above noted project proposal. It conforms to the Keewatin Regional Land Use Plan.

Attached, for your files, is a copy of the list of conformity requirements to which the applicant has undertaken to comply to.

Yours truly,

Bobby Suluk
Regional Planning Co-ordinator

Cc: Jacques Stacey, Forum Uranium Corp.

**NUNAVUT PLANNING COMMISSION
APPLICATION TO DETERMINE CONFORMITY
WITH THE KEEWATIN REGIONAL LAND USE PLAN**

All applicants for a project proposal shall comply with the requirements listed below. The relevant sections of the plan are noted in each requirement.

GENERAL

2. **Environmental Protection:** s2.4.9: The applicant undertakes to prevent any new occurrences of pollution, garbage and contamination at the site of the development.

Yes

No

3. **Removal of Fuel Drums:** s2.4.9: The applicant undertakes to remove all drums safely from the site and dispose of the drums in a safe manner.

Yes

No

4. **New Site Restoration and Clean Up:** s2.4.15 and Appendix 2, s1: The applicant undertakes to clean up the site and restore the site to its natural condition to the greatest extent possible.

Yes

No

5. **Old Site Restoration and Clean Up:** s2.4.10: The applicant undertakes to clean up the site and restore the site to its original condition to the greatest extent possible, including any work required due to the applicant's action prior to this application.

Yes

No

6. **Low Level Air Flights:** s5.4.4 and Appendix 2, s3: Will the applicant avoid low-level flights?

Yes

No

- i. If not, explain why such flights are or may be absolutely necessary.

Helicopters delivering field crews to their daily place of work will fly at a minimum of 300 metres altitude when not actually

Application # North Thelon Joint Venture Project - Forum Uranium Corp

taking off and landing. As a rule, low-level flights will be avoided, but there are circumstances which require such. Airborne geophysics, typically requires flight altitudes of 60-100 metres. Should Forum undertake an airborne geophysical program, low-level flights will be conducted so as not to disturb wildlife and caribou calving grounds. This includes pre-flight reconnaissance to determine if any wildlife are present in the area of that day's survey.

- ii. If such flights are or may be absolutely necessary, will they avoid disturbance to people and wildlife?

Yes

No

- iii. If not, explain why it is not possible to avoid such disturbance.

7. Caribou Protection Measures: s2.4.6 and Appendix 3: Will the applicant comply with the Caribou Protection Measures outlined in section 2.4.6 and in Appendix 3?

Yes

No

8. Caribou Water Crossings: s2.4.6 and map: Will the applicant avoid, between May 15 and September 1, to construct any camp, cache any fuel or conduct any blasting within 10 km of any Designated Caribou Water Crossing identified on the certified Caribou Protection Map?

Yes

No

ARCHEOLOGY

Application # North Thelon Joint Venture Project - Forum Uranium Corp

Reporting of Archaeological Sites: s4.4.3 and Appendix 3, s2 and s8: Will the applicant immediately report the discovery of all suspected archaeological sites to the Department of Culture, Language, Elders and Youth (GN)?

☒ Yes

No

12. Local Services and Local Employment: s6.4.3: Will the applicant rely on local services and employment where possible?

☒ Yes

No

i. Describe the services retained and people to be employed.

Forum will be obtaining provisions and expediting services from local businesses. We will hire local people to work as field assistants, prospectors, camp attendants, cook's helpers, and wildlife monitors.

ii. If no, explain why it is not possible.

PARTICULAR AREAS

15. Game Sanctuary: s2.4.1: Is the project proposal located, in whole or in part, within the Thelon Game sanctuary?

Yes

☒ No

23. Code of Good Conduct for Land Users: Appendix 2: The applicant undertakes to adhere to the Code of Good Conduct at all times.

☒ Yes

No

Application # North Thelon Joint Venture Project - Forum Uranium Corp

I, Jacques Stacey / Forum (name of applicant), certify that the information I have given in this application is true and correct and hereby make the above undertakings which form part of my application for a project proposal within the meaning of the Nunavut Land Claims Agreement.

Date: May 22/07 Signature of Applicant: _____

Keewatin Regional Land Use Plan
Appendix G
Code of Good Conduct for Land Users

1. The landscape of each camp and other land use sites will be restored to its original condition to the greatest degree possible. Water quality will be preserved, and no substances that will impair water quality will be dumped in water bodies. When possible and feasible, old sites will be restored to the natural state.
2. All land users shall assist communities and government(s) in identifying and protecting archaeological sites and carving-stone sites, as required by law.
3. Generally, low-level flights by aircraft at less than 300 metres should not occur where they will disturb wildlife or people. If such flights are necessary, they should only take place after consultation with the appropriate communities. All land users are responsible for reporting to the land managers any illegal or questionable low-level flight.
4. All activities on the land will be conducted in such a fashion that the renewable resources of the area in question are conserved.
5. Whenever practicable, and consistent with sound procurement management, land users will follow the practice of local purchase of supplies and services.
6. Land users will establish working relationships with local communities and respect traditional users of the land.
7. During the caribou calving, post-calving and migrating seasons, land use activities should be restricted to avoid disturbing caribou, in general, and activities will be governed more specifically by caribou protection measures such as those contained in Appendix H.
8. Artifacts must be left where they are found. All land users are responsible for reporting to the location of, or any removal or disturbance of, artifacts to CLEY.
9. The mining industry is encouraged to assist in identifying local carving-stone deposits and report any discoveries to KIA. Industry is also encouraged to identify and report old waste sites that need to be cleaned up.
10. All land users shall obey the laws of general application applying to land use.
