**Re: Notice of Part 4 Screening for North Thelon Joint Venture Project Proposal**

Dear Jacques Stacey:

On March 27, 2007 the Nunavut Impact Review Board (NIRB or Board) received your North Thelon Joint Venture (North Thelon) project proposal from the Kivalliq Inuit Association. On April 4, 2007 NIRB notified you that your project was in the Keewatin Regional Land Use Planning region, and required a conformity determination from the Nunavut Planning Commission (NPC). On May 22, 2007 NIRB received a positive conformity determination for this project proposal from the NPC, at which time NIRB assigned your project proposal file number 07EN046. On May 23, 2007 NIRB requested additional information from you, which NIRB received on May 31, 2007. In the meantime, NIRB also received an application for your project proposal from Indian and Northern Affairs Canada (INAC) on May 25, 2007.

The project is located in the Kivalliq region, and the nearest community is Baker Lake. The intent of the project proposal is to evaluate the uranium potential of the claim area through exploration activities.

The project activities include:

- Aircraft remote sensing (airborne geophysics)
- Soil/till sampling
- Up to 25 on-land drill holes (anticipated for 2008 season)
- Use of Thom Lake airstrip
- Use of existing Thom Lake camp (rented from Tanqueray Resources Ltd.)
- Fuel transportation and storage to camp, and fuel storage caches

All documents received and pertaining to this project proposal can be obtained from NIRB's ftp site at [ftp://ftp.nunavut.ca/nirb/NIRB\\_SCREENINGS/ACTIVE\\_SCREENINGS/07EN046-Forum\\_Uranium\\_Corporation/1-SCREENING/](ftp://ftp.nunavut.ca/nirb/NIRB_SCREENINGS/ACTIVE_SCREENINGS/07EN046-Forum_Uranium_Corporation/1-SCREENING/) including:
