Re: Application 2007N-2BE-SIL – Amendment of Proposed Camp Location

Dear Ms. Beaulieu,

Please accept this correspondence as an official request to amend the proposed camp location identified in the above referenced application for Strongbow Exploration Inc.'s Silvertip Project.

The coordinates for the new proposed camp location are -108° 0' 39.31", 64° 48' 22.46" (Datum WGS84).

As you will see from the attached figure the new location is proposed to be established on the northern tip of Mouse Lake, and consequently this lake will now be used as the domestic water source (the camp location originally proposed was located on the southern end of Paleface Lake which was identified as the intended domestic water source in the original application documents).

If you have any questions or require any further information regarding this submission please contact the undersigned at your convenience.

Yours truly,
STRONGBOW EXPLORATION INC.
