Subject: NIRB 07EN067 - Comment Request Regarding a Potential Exemption
for Golden Bull Resources' "SLAVE" project proposal

Good afternoon Tannis,

The GN-DOE is in the process of reviewing the amendment and extension request for the Golden Bull Resources "SLAVE" project proposal. However, due to the location of the project, the DOE needs more time to review this proposal. The proposed project is located in the Bathurst caribou calving and/or post-calving area. The DOE is requesting an extension to February 15, 2010 for the commenting period. We sincerely apologize for any inconveniences this may cause.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Allison Loder, B.Sc
