RE: **Waste Disposal from Golden Bull Resources exploration camp**

We are willing to accept small amounts of non-combustible waste and recyclables from the Golden Bull Resources exploration camp that will be located within the Northwest Territories but outside Yellowknife city limits. It is our understanding that this camp will not have more than 20 persons. Recyclables and waste need to be separated, recyclables are charged at \$30 / tonne and waste is charged at \$65 / tonne.

Sincerely,

Bruce Underhay
Manager, Solid Waste Facility
