---

Hi Bruce,

That was news to me as well, so I called the City and spoke what the baling facility manager. They are meeting this afternoon to discuss this policy and setting thresholds to accept reasonable amounts of such waste. The landfill here has about a year left of life, and the issue came up due to dozens and dozens of tractor trailer loads of waste being shipped from the mines during construction. I will speak with Bruce Underhay (City YK) Monday and email with any word on this.

Anne

**Subject:** Trash and recyclable disposal

Hello Anne / Carrie:

As you can see below, I am attempting to comply with one of the conditions of the water licence issued to Golden Bull Resources with regards to trash disposal. Following the instructions outlined in Part "D", Number 6 of the 2BE-SLA0811 permit, I contacted Yellowknife yesterday to attempt to get permission to back-haul any unburnable waste. It was a huge surprise when they told me that they do not accept any garbage from outside the city limits. I am hoping that I just contacted the wrong person. Do you by chance have the name of the person who arranges the dumping permits? It would be a big help!

Thanks,

Bruce Goad

I'm not sure who you would contact other than maybe someone from Environment Canada. Some of our contacts there are Anne Wilson [anne.wilson@ec.gc.ca](mailto:anne.wilson@ec.gc.ca) or Carrie Spavor [carrie.spavor@ec.gc.ca](mailto:carrie.spavor@ec.gc.ca) I hope they can be of assistance.

Regards,

---
