Re: NIRB File No. 07EN024
Submission of Revised Spill Contingency Plan

Dear Ms. Inglis-McQuay,

In compliance with the terms and conditions attached to the NIRB screening report for the above referenced file number, enclosed please find a revised copy of the Spill Contingency Plan for the Aviat Project effective April 30, 2007.

Please note that we have recently (post submission of the renewal request for this project) adopted a new format when developing project specific Spill Contingency Plans. This improved format addresses many of the deficiencies noted and revisions requested by the Nunavut Impact Review Board in the Screening Report for File No. 07EN024 and therefore it was used as a template for the development of the revised plan forming this submission.

If you have any questions regarding this new format or require any additional amendments please contact the undersigned at your convenience.

Yours truly,
STORNOWAY DIAMOND CORPORATION
