Re: Put amendment as a separate licence for Anuri rather than amendment

Diane called indicating that they'll respond to Dionne's letter of March 13, 2002. With regards to #1, there is no proposed road, but that will be indicated in their response.

Her reason for calling was to check if this application could be processed as a separate licence (Anuri) rather than as an amendment for NWB2TAK because there is a possibility that this project will be developed separately. I indicated that I didn't think this would be a problem as they submitted all the same forms; however, Dionne might need to contact her during technical review if there are any problems.

Diane will be out of the office for 2 weeks. In that case, contact Sue Ball at sue.ball@kennecott.com
