NOTE TO FILE

May 10, 2002

This is a file that has already gone to technical review but Dionne sent a letter back asking for additional information.

As this letter was back on March 13, 2002 and we haven't heard anything since (except the record of conversation on March 14th), please send Diane Gregory a quick e-mail reminding her of this March 13th letter and asking when we can expect to receive a response as we don't want to hold up the process unnecessarily.

Once you get a response, pass the file back to Dionne.
