RE: Water License Inspection (2BE-THE0813) and Land Use Inspection (N2013U0006)

This is a letter to notify Mega Uranium Limited that the Aboriginal Affairs and Northern Development Canada (AANDC) Field Operations Unit in Nunavut Regional Office has received notice that a request for closure of your Land Use Permit N2013U0006 has been received by AANDC Lands Administration Division; as well, a request for cancellation has been received by the Nunavut Water Board with respect to 2BE-THE0813. In order to close this permit and license, an inspection will be conducted by an inspector duly appointed under the *Territorial Lands Act* and the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*.

While it is too early to predict the exact date of these inspections, I hope to be in the Kivalliq Region on July 3, 2014 with your inspections scheduled for the **July 19, 2014**.

To assist me in preparing for the inspection of your Land Use Permit and Water Use Inspection, I request the following information:

- Names and positions of staff associated with the project
- A summary of the work that occurred during the life of the project,
- Confirmation of exact coordinates (degrees/min/sec, NAD 83) of activities (i.e.: fuel caches, camp, and drill locations).
- Information pertinent for a site visit (i.e.: recent activities, current plans, site hazards or restrictions, site safety protocols, etc.).
- Any other Land use permit (LUP) numbers associated with this site
- Outstanding documents or documents recently submitted to the Nunavut Water Board and/or AANDC Land Administration Division (i.e.: within the last 60 days)

I am looking forward to our visit and hope we have the opportunity to work cooperatively together this coming year.

Sincerely,

Sent by E-mail

Justin Hack
