**Subject: Review of the 2009 Annual Report for Water Licence No. 2BE-THE0813: Titan Uranium Inc., “Thelon Project”**

---

Dear Mr. Dixon:

The Nunavut Water Board (“NWB”) received on March 5, 2010, the 2009 Annual Report for the above-referenced project. The report was distributed for public information on the date it was received.

NWB staff carried out a technical review on the report and determined that it met most of the reporting criteria under Part B, Item 2 of the terms and conditions of Licence No. 2BE-THE0813. Future reports however should include photographic records of site condition before and after the completion of restoration and reclamation activities.

The licensee is reminded that an addendum to the Uranium Exploration Plan dated July 27, 2006 and submitted on September 19, 2007 is required under Part F, Item 1 of the terms and conditions of the licence.

Should you have any questions regarding the above, please do not hesitate to contact the undersigned at (867) 360-6338 ext.25 or email [S.joseph@nunavutwaterboard.org](mailto:S.joseph@nunavutwaterboard.org).

Yours truly,
