To: Richard Dwyer <richard.dwyer@nwb-oen.ca>

Richard,

I have been abroad and away from the office and have not had a chance to review the comments to the above noted water licence application. I am currently preparing to perform additional field work on another international project and will be away from the office until the end of next week. However, after that I will review all the comments and send a response to the comments by July 22nd.

Regards,

Greg
