Subject: 2BE-CWL1116 and 2BE-WAL0607

Hi Phyllis,

Yes, these two licences are related. Instead of renewing the licence the company (under a different name) got a new water licence for the same project at the same location.

By my records I did copy you on the original inspection report on September 25 2012, but your subsequent e-mails (if I'd been paying attention) hint that you'd not gotten it. I totally missed that part (assumed you had the report and didn't require anything further from me). See attached e-mail chains of our conversations to refresh your memory on these two unfortunate files.

WAL has already been mistakenly cancelled based on incorrect information. CWL should not be cancelled until the company reclaims the area. However, I have not had any luck reaching the company.

We can chat any time about how to proceed with this.

Eva

By copy of this email to Robin and Megan - please update the files under your administration as per the information received from Eva. This would be for 2BE-BLU, 2BE-CGP, 2BE-COR, 2BE-CAN, 2BE-SIL, and 2BE-TRE.

EVA:

2BE-CWL1116 - 2BE-WAL0607 - you are referring to these 2 files in the same sentence. Are they related as the same project? You indicate an inspection report submitted to the NWB on Sept 25, 2012. We have no record of this in our files for either CWL or WAL. There has been no action on our end to re-open WAL. Perhaps you can call to discuss how best to approach this one. If they are the same project we can perhaps amalgamate the two and just act on the active one for cancellation right now, which is the 2BE-CWL one.

2BE-ASH0611 the NWB is still waiting on the proponent to send in the application form to cancel this licence. After our 30 day review we will proceed to cancel the licence based on your go ahead.

2BE-CGP and CGR and COR - which one of these is the Eureka Camp?

2BE-TIM - will update our record accordingly indicating second inspection is required.

Regards,

Hi Phyllis,

My understanding of the status of some specific files in the table you have sent:

2BE-BLU0812 - Inspection Report submitted August 1, 2013. Further reclamation required by company.

2BE-CWL1116 - 2BE-WAL0607 licence cancelled based on incorrect information from RMO. WRO Inspected in 2012 and report was submitted to NWB on Sept 25 2012 showing outstanding work. Company has been non-responsive. (related: AANDC awaiting NWB decision whether to re-open 2BE-WAL). *What is the latest correspondence with Licensee? Any response from Australia?*

2BE-ASH0611 - Inspection report submitted November 20 2013. No remaining work necessary on-site.

2BE-CGP and CGR1012 and 2BE-COR0608 - Inspection Report for all three submitted September 5 2013. Further reclamation required at Eureka Camp.

2BE-TIM0813 - will require a second inspection based on coordinates recently submitted by company.

2BE-CAN0608 - Inspection report submitted November 19 2013. Further reclamation required by company.

2BE-SIL0709 - Inspection report forthcoming - Further reclamation required by company.

2BE-TRE0608 - Inspection report submitted November 19 2013. No remaining work necessary on-site.
