Subject: RE: 2BE-WOL---- water licence application

To: Assol Kubeisinova <[assol.kubeisinova@nwb-oen.ca](mailto:assol.kubeisinova@nwb-oen.ca)>

Hello Assol:

The companies plan is to only have a few people at the second location, in pup tents, where they will bring bottled water for domestic purposes (drinking), and bury their human waste. Any other waste e.g., lunch bags etc. will be brought back to the main camp for proper disposal. The only purpose of the second “camp” is to look at old drill core from previous exploration. They will have a helicopter present.

Let me know if you need further clarification.

Kind regards

Denise

Hi,

Water use and waste deposit will be taking place, even if certain facilities are absent.

I don't have one for them. Do you have an example? It could be attached as a term and condition.

Denise

Dear Denise Lockett,

I am writing in regards to your application for a water licence No. 2BE-WOL----. I understand an incinerator is planned to be used on-site - could you please provide a management plan for its use?

If the plan is not readily available, should the licence be granted, it would include a condition for Rio Algom / BHP to provide it 60 days prior to the use of the incinerator. Please let me know which option you prefer.

In addition, there are two camps mentioned in the application form, and coordinates are provided for the larger one. Could you please indicate the coordinates for the smaller camp as well?

Thank you,
