Hi Richard, I will advise once I get back from Lupin on the status of NPC. There was a set back with NPC which I am not sure was me using the system incorrectly or the online system. Having said that we are winding up at Ulu due to early snow fall and we will be finishing the program next year. We are still moving forward with the amendment and did accomplish a significant amount of work already permitted under our land use permit and current water licence but will complete the work as set out in the amendment during the next summer season.
