Hi George and Patrick,

I'm trying to work back and figure out where the gaps are from the last couple of inspections. I've compiled a table with the inspection information and main correspondence from 2012 onwards. The table is a little ungainly - page two is a continuation of the table from page 1, so they read side-by-side. Same with pages 3 and 4. Outstanding issues are highlighted in red.

We can discuss next week in Kugluktuk if time presents itself, or afterwards.

Regards,

Eva Paul
