Derek, Richard,

Further to the NWB's letter of December 24, 2019, on behalf of Blue Star Gold Corp. (Blue Star) I wish to address the following items requiring immediate attention:

- **Security Requirements (Part B, Items 2 to 7)**

Blue Star has been working closely with CIRNAC for the last month to ensure security is put in place in a timely manner. This process is underway and Blue Star is optimistic that CIRNAC will be in a position to confirm receipt of the full amount of security imminently.

- **Annual Report (Part B, Item 8)**

Through the assignment process, the previous Licensee, Bonito Capital Corp. (BCC), provided Blue Star with copies of the 2017 and 2018 annual water licence reports. Copies of these reports are attached.

For the period of 2019 during which Blue Star was the Licensee (December 24-31, 2019), no work was undertaken on site.

It is understood that BCC will submit an annual report for the works undertaken during the remainder of 2019, when it was the Licensee.

- **Updates to Management Plans (Part B, Item 15)**

Blue Star acknowledges that management plan updates are required. As the water licence 2BM-ULU1520 expires in May 2020, Blue Star plans to commence the renewal and amendment process this week. Through that process, revised plans will be made available for review, comment and approval.

Should you have any questions about any of the above listed items, don't hesitate to contact me.

Kind regards,

Sharleen
