Subject: Water Licence 2BM-ULU2030 Part D Item 14 – 2020 Geotechnical Inspection

Dear Mr. Kuhn

The Nunavut Water Board (NWB or Board) received from Blue Star Gold Corp. (Blue Star) on August 20, 2020, a request to confirm the requirements of the 2020 Geotechnical Inspection under Part D, Item 14 of the Water Licence 2BM-ULU2030 (Licence), for the Ulu Project. Blue Star has confirmed that *“activities on site in 2020 are limited to camp management, mineral exploration, progressive reclamation, and waste segregation, staging and backhaul; no significant mine or construction-related operations will be undertaken on site in 2020.”*

The NWB confirms that the Geotechnical Inspection required under Part D, Item 14 won't be necessary for the year of 2020, as this term is generally applicable to major infrastructure and/or earth works.

Should you have any questions please feel free to contact Derek Donald, by email at Derek.Donald@nwb-oen.ca, or by phone (867) 360-6338.

Sincerely,

Derek Donald
