Ms. Phyllis Beaulieu  
Manager of Licensing  
Nunavut Water Board  
P.O. Box 119  
Gjoa Haven, NU  
X0B 1J0

Dear Ms. Beaulieu

**RE: Monthly Report for June 2012**  
**Ulu Gold Project, Nunavut, License Number 2BM-ULU0914**

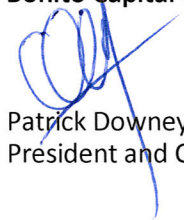

During June, there were a maintenance crew performing upgrades to the camp facility, along with an exploration crew. In total, there were approximately 111 person days of activity at the Ulu site.

There was approximately 105 m<sup>3</sup> of water withdrawn from West Lake, and 89 m<sup>3</sup> of sewage generated.

Domestic waste generated during the month of June was burned in the on-site incinerator. Plastics, and other waste streams were separated and backhauled to an approved waste handling facility in Yellowknife (KBL Environmental) for off-site disposal.

If you have any questions regarding the above, please do not hesitate to contact me.

Sincerely,  
**Bonito Capital Corp.**

Patrick Downey  
President and CEO
