RE: NPC File # 148597 Contwoyto Recce

1. Mineral Exploration: The project includes 2-4 man geological and geophysical exploration crew over the next two years. Surveys include prospecting, mapping, sampling, geophysical surveys, and staking. The bulk of the project is expected to run between June 15 and October 15 each year with some short term work between February 1 and April 30.
2. Location: Kitikmeot Region; Contwoyto area

The Nunavut Planning Commission (NPC) has determined that this project proposal is outside the area of an applicable regional land use plan and is exempt from screening by the Nunavut Impact Review Board (NIRB). The project proposal does not require screening because it belongs to a class of works or activities set out in Schedule 12-1 of the Nunavut Agreement, and the NPC does not have concerns regarding the cumulative impacts of the project proposal.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials are available at the following address:
<http://npc.strata360.com/portal/project-dashboard.php?appid=148597&sessionid=>

This decision applies only to the above noted project proposal as submitted. Proponents may not carry out projects and regulatory authorities may not issue licenses, permits and other authorizations in respect of projects if a review by the NPC is required.
