Dear Russell Starr and Allyson Ullrich:

Please find attached Approval No: 2WLC-NUT2425 issued to Greenridge Exploration Inc. by the Nunavut Water Board (NWB or Board) pursuant to its authority under Article 13 of the *Agreement between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada (Nunavut Agreement)*. The Approval has been authorized for a period of one (1) year after the day on which the Board approves the Application and includes conditions related to the use of Waters and deposit of Waste, which are an integral part of this Approval required for this type of authorization under the *Nunavut Waters Regulations (NWR or Regulations)*.

This approval and the conditions contained therein permit the carrying out of activities involving the use of Waters and deposit of Waste with respect to the Application for approval. Any variation from these activities may result in a violation of this Approval and contravention of the *Nunavut Agreement*, the *Nunavut Waters and Nunavut Surface Rights Tribunal Act (NWNSTRA)* or the *NWR*. The NWB would like to remind the Applicant of the obligations with respect to the reclamation and reporting requirements of the Approval, which will arise as this Approval approaches its expiry.

If the activities authorized under the Approval are expected to continue longer than the term authorized, it is recommended that the Applicant, upon receipt of confirmation<sup>1</sup> from the Nunavut Planning Commission (NPC) and/or the Nunavut Impact Review Board (NIRB) that relevant requirements have been satisfied, apply for a new Approval at least thirty (30) days prior to the expiry of the current authorization. Note that if the existing Approval expires before the NWB

issues a new Approval, the use of Waters and/or deposit of Waste must cease as required by the *Nunavut Agreement* and the *NWNSRTA*.

If the Applicant contemplates changes to its undertaking involving a change in scope or increased activity, a water licence may be required. It is the Applicant's responsibility to apply to the NWB for a water licence in accordance with the timelines set out for licences.

### DECISION

After having received confirmation from the Nunavut Planning Commission (NPC) that the Application is for a proposal that was previously reviewed by the NPC<sup>2</sup> and for which the conformity determination, dated June 07, 2024, remains applicable and the project conforms to the Keewatin Regional Land Use Plan (KRLUP), and the project activities are exempt from the requirements for screening by the Nunavut Impact Review Board (NIRB) as the inclusion of additional mineral claims and the extension of the timelines does not change the general scope of the project, and the exceptions noted in Section 12.4.3 (a) and (b) of the *Nunavut Agreement* do not apply, the Board notes that the requirements of Articles 11 and 12 of the *Nunavut Agreement* and sections 3, 4 and 5 of the *Nunavut Waters Regulations (NWR or Regulations)* have been adequately addressed. In addition, through the provision of a signed Application for an Approval Without a Licence, the Applicant has agreed to adhere to sections 4(3), 5(4), 5(5) and 6 of the *Regulations* and to comply with the associated requirements, the NWB determined that:

**Approval No: 2WLC-NUT2425 be issued, subject to the conditions of Schedule 1 contained therein (Motion # 2024-WL-019).**

SIGNED this 26<sup>th</sup> day of June, 2024 at Gjoa Haven, NU.
