Good afternoon Alex,

The Nunavut Water Board has received your application form, project summary (English), maps, and fee. In addition to this, please provide the following:

- **Project Summary in Inuktitut** - This is a standard requirement for all applications
- **Fuel Management and Spill Contingency Plan(s)** - This is required because the application notes there will be fuel use/storage on site. This could be one plan combined or two separate plans. Attached are checklists/ guides to help prepare these plans
- **Letter of Authorization** - The company name is noted as **Alexandre Jones Vilela da Silva (Alex Vilela) c/o Flexure Minerals Limited** in the application form, and the email signature notes Somerset Minerals. Please confirm the Approval will be issued to **Alexandre Jones Vilela da Silva (Alex Vilela) c/o Flexure Minerals Limited** and not Somerset Minerals.

Regards,

Robert Hunter
Licensing Administrator
