Good Afternoon Megan,

I wanted to follow up on the water license amend/renew application for 3AM-ARV1016 Hamlet of Arviat. Do you know when the GN-CGS will be ready to proceed with the amend/renew process?

Thank you,

Cynthia Ene, MBA, P.Eng.- ٲٲٲٲ ٲٲٲٲ

Good Morning,

On March 27, 2015 NWB circulated the Application for a "completeness review and an initial technical assessment" of the water license amend/renew application for 3AM-ARV1016 Hamlet of Arviat. On May 4, 2015 comments were received from EC and AANDC. All received comments have been placed on the NWB ftp site: <ftp://ftp.nwb-oen.ca/>

The NWB followed-up with GN-CGS on the received comments and outstanding submissions. On May 20, 2015 a response was received from GN-CGS confirming that submissions would be sent to NWB by May 22, 2015 (attached are the communications). Since May 22, 2015 till date the NWB has not received any response to any of its follow-up communications. Please note that NWB Technical Advisor - Cynthia Ene, will be on an extended leave of absence from the NWB from March 23, 2016 and as such all follow-up communications from GN-CGS should be directed to NWB Technical Advisor - Sonia Aredes.

The NWB will be able to continue processing this file once a response is received addressing the review comments received from EC and AANDC, dated May 4, 2015, as well as the outstanding submissions required by the NWB:

1	Annual Report	The 2015 annual report has not been received. The reports submitted from 2010 and 2011 are incomplete, pertaining to Part B, Item 3.
2	Monitoring terms in Licence	2011 Annual report is notably missing all licence mandated lab sample results. The reports from 2012 to 2014 do not follow the monitoring requirements as prescribed in

Sincerely,

Titigauqvia 119
