Dear Mr. Dwyer, Mr. Chapple, Ms. Maksagak, and Mr. England:

RE: NPC File # 149380 [3AM-ARV1015 Municipal Water Licence Amendment and Renewal]

The following works and activities have been proposed in the above-noted project proposal:

1. Renewal and Amendment of the community of Arviat's Type A Water License # 3AM-ARV1015 and 3AM-ARV1016 to accommodate the operation of the new water treatment plant, a third raw water reservoir (Cell #3) and decommissioning of the old sewage lagoon.
2. Although the proposal notes future plans to expand or move the sewage lagoon and the solid waste disposal facility, the scope of the current review does not include the establishment of new sewage lagoon and solid waste disposal sites.
3. Related NPC FILE No. 148586; Related NIRB FILE No. 17WN058.
4. Location: Kivalliq Region; [Arviat]

A complete description of the project proposal reviewed by the NPC can be accessed online using the link below.

The Nunavut Planning Commission (NPC) has completed its review of the above noted project proposal. The activities associated with this proposal were previously reviewed by NPC, and a conformity determination was issued on January 28, 2010, and on May 18, 2017 which still applies. In addition, the activities were previously screened by the Nunavut Impact Review Board (NIRB FILE NO.: 17WN058.). The above-noted project proposal is exempt from screening by the NIRB because the NPC is of the understanding that it does not change the general scope of the original or previously amended project activities (NPC File # 148586), and the exceptions noted in Section 12.4.3 (a) and (b) of the Nunavut Agreement do not apply.

By way of this letter, the NPC is forwarding the project proposal to the regulatory authorities identified by the proponent. Project materials, including the applicable conformity requirements, are available at the following address:

This conformity determination applies only to the above noted project proposal as submitted. The regulatory authorities to which this letter is addressed are responsible under the Nunavut Agreement to implement any of the applicable conformity requirements by incorporating the requirements directly, or otherwise ensuring that they must be met, in the terms and conditions of any authorizations issued.

My office would be pleased to discuss how best to implement the applicable requirements and to review any draft authorizations that regulatory authorities wish to provide for that purpose. If you have any questions, please do not hesitate to contact me at (867) 979-3444.

Sincerely,
