Good afternoon,

The Nunavut Water Board (NWB or Board) acknowledges receipt November 19, 2020 of, Crown-Indigenous Relations and Northern Affairs (CIRNA), Environment Climate Change Canada (ECCC) and Applicants Clarification, to comments received during the completeness check of the water licence renewal application, they can be found at the link below:

ftp://ftp.nwb-oen.ca/registry/3%20MUNICIPAL/3A/3AM%20-%20Municipality/3AM-ARV1016/2%20ADMIN/3%20SUBMISSIONS/

The NWB notes that ECCC advised in its submission:

"In the responses to the Completeness Check comments, the Hamlet identified that the feasibility studies for the upgrades to the solid waste facility and sewage lagoon facility have been delayed and will be provided in January 2021. In addition, the Hamlet identified that a number of updated plans will be provided in March 2021. In the absence of this information, no new technical information has been presented as part of this water licence renewal and amendment. ECCC recommends deferring technical review until such time that these plans and studies are made available for review."

The NWB finds ECCC's recommendation to be reasonable and will defer the review until such time that the outstanding submissions are received by the Board.

Regards,

Richard
