Subject: Hamlet of Arviat – Application for Type A Water Licence

Dear Mr. Aglukark:

The Nunavut Water Board (“NWB”) received an application for a renewal of Arviat’s Water Licence on January 5, 2009. Based on the 2006 census the population of Arviat is now over 2000 which changes this file from a Type B to a Type A and will require a public hearing.

To begin the process the NWB is requesting that the Nunavut Planning Commission (“NPC”) review the file and provide a conformity review. Once a conformity determination is made, NPC will forward its determination to the Nunavut Impact Review Board for screening, and copy back to the NWB.

Sincerely,

*Original signed by:*

Phyllis Beaulieu  
Manager of Licensing
