- Nunavut Water Board Background
- Types of Authorizations
- The NWB's Licensing Process
- Overview of the Project
- Scope of the Application
- Application Procedural History
- Next Steps in the Application
- Questions and/or Comments

Nunavut Water Board

Background

The Nunavut Water Board

- is an Institution of Public Government (IPG) established under Article 13 of the *Nunavut Agreement*
- has responsibilities and powers over the regulation, use, and management of freshwater in the Nunavut Settlement Area

Nunavut Water Board

Background

The objective of the NWB is to provide for the conservation and utilization of waters in Nunavut, except in a national park, in a manner that will provide the optimum benefit from those waters for Nunavut's residents in particular and Canadians in general.

Types of Authorizations

- ➤ Based on its mandate and the Nunavut Waters Regulations (*Regulations*), the NWB may issue one of the following authorizations for the use of water and/or deposit of waste for undertakings in Nunavut:
 - Authorization without a Licence
 (less than 50 m³ per day water required)
 - o **Type "B"** Water Licence (between 50 m³ and 299 m³ per day water required)
 - Type "A" Water Licence
 (300 m³ or more per day water required)
 - o This week's TM-PHC is for a Type "A" water licence application based on criteria set out in Schedules 2 and 3 of the *Regulations*

NWB receives application and confirms classification of undertaking and type of licence as a Type "A" licence
