The NPC in its March 7, 2023 correspondence¹ confirmed that the project proposal did not constitute a significant modification to the general scope of the original or previously amended project activities and the NPC's previous conformity determinations dated April 28, 2015 and October 27, 2022 still apply, and that the project proposal is exempt from further screening by the Nunavut Impact Review Board (NIRB) because the project proposal did not change the general scope of the original or previously amended project activities already assessed by NIRB. The NIRB has previously screened and exempted the works and activities associated with the current proposal, for a Type "A" Water Licence (NIRB File No. EX232).

In accordance with section 56 of the *Nunavut Waters and Nunavut Surface Rights Tribunal Act*, the above referenced Licence requires your approval and, as such, the NWB submits the attached Reasons for Decision including the Record of Proceedings along with a copy of Water Licence No: 3AM-CHE2333 for your consideration.

Should you have any questions, require clarification with respect to the above or wish to discuss further, please contact the undersigned in writing at your earliest convenience.

Sincerely,

Lootie Toomasie
Nunavut Water Board, Chair
LT/as/rh
